Harsh Kumar

B.Tech CSE Student (3rd Semester) · Aspiring Software Engineer

guptaharsh90211@gmail.com | github.com/Harshgupta90211 | linkedin.com/in/harsh-gupta-611644377

Computer Science student at Jaypee University Anoopshahr building practical web applications and practicing Data Structures & Algorithms. Focused on C++, modern web tech, and database design. Available for internships and projects.

EDUCATION

B.Tech in Computer Science — Jaypee University Anoopshahr 2025 – 2029

3rd Semester (Present) · CGPA 9.0

Coursework: Data Structures · Object-Oriented Programming · Database Management Systems · Computer Networks

TECHNICAL SKILLS

Languages: C++, Python
Web: HTML5, CSS3, JavaScript, React
Databases: SQL, MySQL
Tools: Git, GitHub, VS Code

PROJECT

Student Toolkit — student productivity web application Live Demo · GitHub

- A student productivity web application featuring a dynamic CGPA calculator, grade converter, basic calculator, study notes, and backlog tracker.
- Built with HTML, CSS, JavaScript and LocalStorage, with a responsive layout for desktop and mobile.

DATA STRUCTURES & ALGORITHMS

- Regular problem solving on LeetCode and GeeksforGeeks across arrays, strings, linked lists, binary search, stacks & queues, trees, recursion, and sorting algorithms.
- Core languages for algorithmic problem solving: C++ and Python.

CURRENTLY LEARNING

- Relational database modeling with SQL and MySQL.
- Planning full-stack integration with Node.js, Express, and MySQL.
- Next milestone: JavaScript DOM manipulation and React components.
